

XipLink Wins Three Key Awards For 2019

Executed high-growth strategy, continues as top Canadian company and SD-WAN recognition

March 3, 2020 - Montréal, QC: XipLink, the technology leader in Wireless Link Optimization is proud to announce three major awards from several different organizations for the calendar year 2019. Branham Publications identified XipLink as one of the top 250 Information Communications Technology companies in Canada (196th), McLean's Magazine "Canadian Business" also recognized XipLink as one of the top 500 growth companies based on revenue obtainment for 2019 (258th) and, significantly, CIO Review magazine chose XipLink as one of the 20 most promising SDN companies to follow into the future.

Jack Waters, CEO at XipLink notes, "We are extremely proud of our employees for achieving recognition from multiple sources for our technology accomplishments and customer focused culture. The growth rates, doubling revenue over the last two years, is validation that XipLink's quality level is extremely high with re-order rates from existing customers at record levels. Additionally, these awards are only possible with sound advice from our business partners and customers, giving us focused confidence and execution capability in the marketplace. With WAN Optimization transitioning to SD-WAN delivery, XipLink is well positioned in the satellite and wireless business to provide solutions to forward-thinking businesses around the globe."

About XipLink, Inc.

XipLink is the leading independent global technology provider for wireless link optimization using standards-based SCPS protocol acceleration, streaming data compression and Internet optimizations to deliver a better wireless experience over stressed communication links.
